

PVC Shooting Stands

Pc. needed for		# of pc. needed to make					
Each Stand		1	5	10	15	20	25
4	2.5"	4	20	40	60	80	100
2	5.5"	2	10	20	30	40	50
2	15"	2	10	20	30	40	50
4	20"	4	20	40	60	80	100
2	23"	2	10	20	30	40	50
2	28"	2	10	20	30	40	50
4	40"	4	20	40	60	80	100
5	43"	5	25	50	75	100	125
Feet needed per		51	255	510	765	1020	1275

51' of PVC needed for each stand (+-)

High Pressure Fittings Only

Pc. needed for							
Each Side		1	10	20	30	40	50
4	Tee's	8	80	160	240	320	400
2	45's	4	40	80	120	160	200
3	90's	6	60	120	180	240	300
1	3-Ways	2	20	40	60	80	100

Use high pressure fittings only !!! Drain fittings are too weak.

Schedule 40 PVC 2" pipe only !!!!!!!

Use Clear cleaner & cement !!!!!!

Don't use cleaner to wipe off letters. It will turn brown in the sunlight

Face all numbers, letters etc. on pipe forward away from shooter's eye

Assemble one side at a time, laying it flat on a hard surface.

A pattern drawn on a 4'x8' sheet of plywood works well.

This will keep each side straight & flat as you assemble.

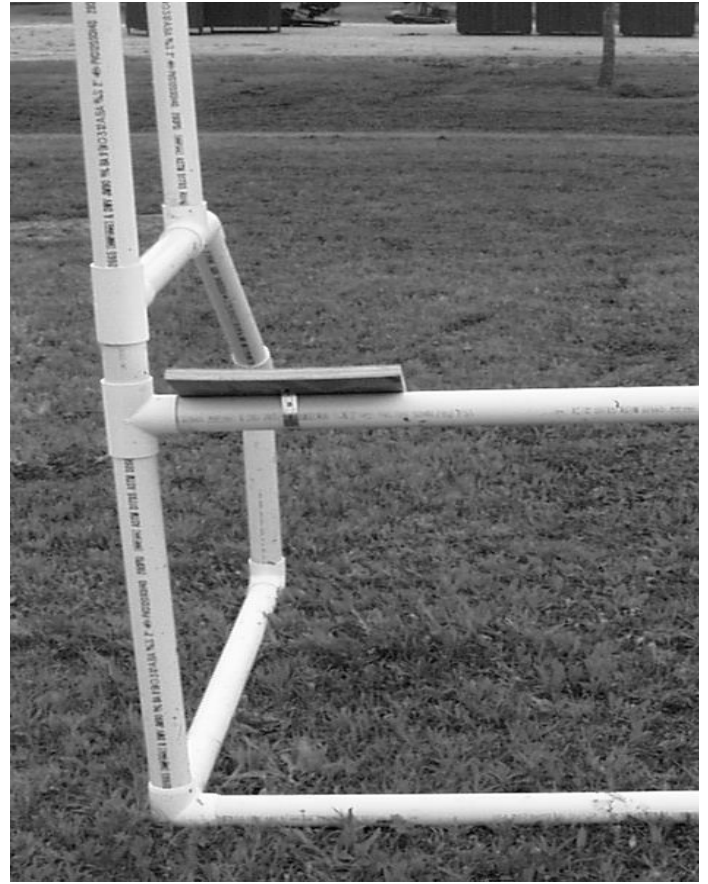

Assemble right side with T's & 3-way's pointing up and install 3 (43") cross bar.

Set aside to dry while you work on left side. Lay on it's side with cross bars up.

Assemble left side with T's & 3-way's pointing down, use blocks (2"x4") to keep straight.

This side will now set down on the first side.

Cut and assemble one stand to use as a model

Hard to find parts can be ordered
